NOTICE.

BOOK BINDING

I WOULD most respectfully suggest to my friends and those who have usually patronized me that I still continue in the Binding line at the old stand called the East Side Bookstore and Bindery—now called the East Side Book Bindery at which place I shall stick out a short time and shall be extremely happy to see my old friends and the others bringing in their Periodicals Music &c to be bound which shall be done in a neat and durable manner and at as low a price as any other bindery in the state.

P S Music stamped with the titles and ornaments on the outside with your proper name. Some books of binding can be seen at my bindery. Orders from the country punctually attended to.

☞ My friends and the public generally will please accept my sincere thanks for their patronage during my sojourn at the East.

Yours Respectfully

HALLOWELL HOUSE,
HALLOWELL, MAINE.

THE subscriber respectfully announces to his friends and the public that he has leased this well known Hotel and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

Hallowell March 18th, BENJ HODGES

STEAM MILL TO LET,

ON a lease of 1 3 or 5 years at a moderate rent the Penobscot Steam Saw Mill known as Mitchell's Mill, situate on the Penobscot river in Hampden, near the city line of Bangor. The Mill has extensive Wharfs and water privilege on the river and an immense power for Lumber operations having two Engines four saws &c! Apply

CHARLES BEAUMONT,
299 Washington Street—Boston

N B—A responsible person or persons wishing to purchase the lease, can have a portion of the water privilege which may purchase one half of the Mill.

LATEST AND BEST
IMPROVED....
Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the City of Bangor.

This is an improvement in its construction in furnishing a substantial Bottom to the bed which shall be elastic and have all the advantage of a Slat or Sack or Bedstead, while at the same time it serves to secure the posts and rails together without other aid. It can be put together by the head of *old or new* with much less time and labor than is required to put in a common bottom, and *gives great strength* and support like a bottom of the proper shape. It is not the object of this simple improvement will when known take the place of every other method in use. We can confidently recommend the above improvement to our customers and the public as the most most substantial and best Bedstead ever invented.

The public are respectfully invited to call and see for themselves.

New Hotel at Oldtown!

JAMES STINSON

A NOUNCES to his friends and to the public, that he has fitted his large, commodious and centrally situated dwelling for a Public House, and has opened the same to the public with the determination that every attention shall be paid to the accommodation of the travelling community.

He views full assurance that he will keep a REMEMBRANCE HOUSE and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders.

It is believed that a Hotel of this description is greatly needed in Oldtown and the public are invited to give it their support.

Mrs. E. Kidder's
Cholera, Dysentery,
....AND....
Diarrhœa Cordial,
—AN—
Immediate and Perfect Remedy,
....FOR....
Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

HERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement—

It has been before the public for more than seventeen years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE
OF THE
CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same!

SURE TO CURE,

even where the disease has advanced to its last stages.

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA, he is at home and abroad and of the little success which has thus far attended the attempts to check its fearful inroads on human life.

Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system.

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine, when the disease had advanced to its last stages!

It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended from an attack of the Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state how ever severe the attack may be, or however low the patient may have become it invariably restores!

The Severest Cases of Dysentery are immediately counteracted, the pains allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

Either in children or adults, of months or years continuance, is most readily cured with this Cordial notwithstanding they may be reduced to mere skeletons; it immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint—it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting produced from any cause whatever.

Children Cutting Teething,

if in bad Diarrhœa, should always be provided with this medicine, as it will keep the bowels regulated and keep off the Canker. It is wholesome safe and pleasant to the taste and children are fond of it and will take it without trouble or dislike.

For General Debility and Dyspepsia,

it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution.

CAUTION!

Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart in to adapt for family use and sold at One Dollar per bottle.

REMOVAL.

MRS. R. JORDAN

Begs leave to inform her old patrons that she has removed from No. 23 Main Street, to 46,
Opposite the
HATCH HOUSE,
On the lower Floor
Mrs J here returns her thanks for the liberal and extensive patronage of the inhabitants of Bangor and surrounding country, and calls their attention to

THE FACT

That her Establishment was the first of the kind opened in this place

Sixteen Years Ago,

And with her vast experience and resources for obtaining improvements at the present time, render her Establishment superior to any in this city, and Mrs J hopes to receive the continuation of that reputation which has, universally been given her for the

Clear and fine Finish

of her Straw BONNETS

With the large assortment of Straw Goods of her own manufacture she is constantly receiving them from New York—also from the

Home Manufactory

of DAVIS & BLAKE Portland, whose new and improved facilities are such as enable them to sustain

THAT REPUTATION

for Style and Finish, which is acknowledged by all to be not equalled by any other Manufactory in the *UNITED STATES*

In addition to her Straw Millinery Department, MRS. JORDAN is prepared to furnish her patrons with all kinds of Silk Millinery, comprising Caps Silk Surred Hats, Lawn, and Mourning do Hats, trimmed in an

Elegant Style,

by experienced Milliners, from a large assortment of the richest and latest patterns of Ribbons and Flowers just received from New York.

Mrs J also continues to clean and repair Bonnets in the usual style which is acknowledged by all to be the BEST. Particular attention is paid to the Bleaching and pressing of Gents Leghorn, and Panama Hats. Also Ladies Lace Bonnets which are cleansed and finished in a manner that render them

Equal to New,

and Ladies who may be desirous of having their Lace Bonnets repaired, may rely on having them done to their satisfaction or *NO CHARGE*

Bangor, April 30, 1849

ECONOMY IS THE ROAD
TO
CALIFORNIA.

THE subscriber would respectfully inform all those who are desirous to go to California, but find themselves minus the "TIN,"—that he has recommenced his business of

Cailoring and Clothes Cleansing,
—at his OLD STAND,—
110 Main Street,

and assures the public that they will find his establishment *the road* to commence to go to California, therefore, all who have soiled garments and would use economy, are requested to call at MURRYS. He warrants to remove spots occasioned by acids, grease, paint tar ink, and marks of all kinds, and press and finish the garments in a superior manner. His mode of cleansing garments, is different from any in the city, as it does not injure them either in form or durability, but gives them the appearance of new.

Repairing and altering done in the neatest style. His work will be done well, at reasonable prices, and with punctuality.

He respectfully returns his sincere thanks to the citizens of Bangor and the public in general for the very liberal patronage he received while in business heretofore, and hopes by strict attention, and by a superior skill in the business, (as all who have favored him with their custom can testify) to merit and receive a share of public patronage.

Orders attended to in any part of the city.

J F MURRY,
June 7 tf 110 Main Street

The above Safes are manufactured and for sale by JOHN E WILDER, Boston and for sale in Bangor, at the manufacturers prices, by
FISKE & DALE

Dec 4, 1848

Holden's Alterative and
TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances grow out of imperfect digestion are generally cured; persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

Home Testimony

We, the undersigned, have ourselves or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

Geo Fitts, Albert Holton, Wm H Vipton, Geo Hammett, G F Sargent, Isaac W Patten, Doct Aaron Young Jr, David Worcester, Simon F Walker, John Huckins, O H Ingalls, John Appleton.

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived.

Whig and Courier.

John S Sayward,—Editor.

WEDNESDAY, OCTOBER 17, 1849.

☞ Man is not a mere phantom and fragment of another state of being, but a social being to be cultivated in this world If left to pass away in idleness and folly the years of his youth, there is but small hope of his ever reaching any elevated state of culture as an intellectual, social, moral or religious being All experience, we think, goes to confirm this rule How perilous, then, in our cities, particularly is the season of youth! If the years from thirteen to eighteen be given up to the wrong headed waywardness of boys—if they get away from the kindly control of parents and friends—if they are allowed to be the masters of their own time, and to congregate in loafer resorts, their active wits will, in most cases, lead them on to crimes and ruin Employment, active constant and earnest employment is the surest remedy for the lapses and faults the short comings and crimes of the youth of this and every other city. Mournful is the record of such in our midst, and this fact is full of solemn warning to parents whose boys first begin to work themselves out from parental restraint The first idle day out of school—the first evening in loafer resorts—the first neglect and refusal to perform accustomed labor, are so many steps in the road to ruin Here is the point where the parent should arouse himself and interpose, without hesitation and without wavering, the necessary preventive If the parent is deficient in the necessary intellectual and moral energy for this purpose it is a sad failure for the boys, because they will then, most likely, be left to grow up with an evil direction, and to seek companions, with whom it will be easy to traverse the down hill of life into the very dregs of society.

If there is one blessing above another which we could desire for any city—promotive of its upward growth, it is a plan by which employment of head and hand should be furnished to the youth of that city

That little boy frolicking at the corners of the streets, and dodging in and out of restaurant shops, in the evening with his lighted cigar, and the big oath belching from his throat, is a candidate for ruin He needs oh! how much he needs the friendly hand of direction—the word of counsel, the power of restraint Perhaps he is the son of a poor widow, whose husband has been laid with sorrow in the dark grave, and her son him whom she fondly loves, on whom all her hopes depend, and whose affections for her, she measures by the intensity of that she bears for him, instead of sympathising with her, is daily, while she is toiling for him, becoming more and more indifferent, and wandering farther and farther from her until he regards her only as the light of a slave to labor for him, while he refuses to perform the simplest duties That widow needs assistance She at least, has the right to demand of those men whose boys lead the way in transgression shall prevent their stealing away the heart of her boy, and contaminating him with their evil habits and thoughts. She has the right to demand of the civil authorities that the forerunners in the wilderness of crime shall be so dealt with as to stand as warnings to those who first turn their ear to the voice of temptation

If the power of money of influential station, if mistaken sympathy are allowed to interpose themselves to shield the evil-doer, and put away the legitimate consequents of crime, without amendment in the offender, then encouragement is offered to crime and offenses against the weal are of society are at a premium, and candidates for that profession will be multiplied Fear, as every man's experience will tell him, has a mighty influence over the conduct of all, and particularly the young, and whatever lifts the influence of fear from the mind or lessens its weight, is an evil, and ought not to be encouraged or even tolerated

Prevention is better than cure, and to this attention must mainly be directed The intellectual and moral wants of the young must be attended to Employment of time must be made attractive until it shall be confirmed as a habit The home circle, that blessed association—that approach to heaven, must be made an instrument of good to the young The day school, to those who can attend, must, in the thought and affections of the parent be respected as a precious gift from heaven to unfold the mind and expand the hearts of the young For those who cannot attend the day school on account of business employment evening schools should be encouraged In all these and indeed in every place and point of influence, in public and private, men and women too, should feel that they are personally responsible for a healthful and direct moral and elevating influence upon the young A vivid sense of such obligation will work favorably upon the youth of our city not only in keeping the innocent in the paths of rectitude, but also in recalling the wanderers, and aiding in their reformation by teaching them to cease doing evil and to learn to do well

Business of the City.

Since the departure of the cholera and the advent of the late rains, business has assumed an unwonted appearance in this city The Sunday stillness has altogether disappeared—the harbor is filled with vessels,—the docks with lumber—the streets with teams—Marketmen and business men of all descriptions are hurrying hither & thither as in times of Bangor's former prosperity. Every thing indicates an excellent fall business, and instead of the careworn, desconsolate visages, which a month ago added their length to our lengthy streets, we see short lively faces, and find the streets shortened in proportion Strangers who visit Bangor now, will find 'a Bangor as is a Bangor'

Sad Accident.

A man by the name of Grout, coming into market on Monday with a load of bark, hauled by four oxen fell from the tongue upon which he was sitting, and he wheel passed over his leg and hand and grazed his skull He lay in the road not on ems and when reached he was found to be dead —— drunk! He was conveyed to the side of the road where he lay during a portion of the afternoon, a beautiful commentary upon the tender mercies of the rum selling tavern-keepers upon the Levant road' Heaven save all rum drinkers from the skeleton clutches of such men

Seamen for California.

The Boston Journal says we are informed by one of our most intelligent shipping agents, that while it is generally difficult to furnish vessels bound to foreign ports and to distant ports in the United States with crews, those who are up for California are exempted entirely from this difficulty so many offering themselves, that the labors of the shipping master in most cases, are dispensed with Those who go to leave the ship on her arrival out receive one dollar per month wages, while those who ship for the voyage out and back get $17 or $18 per month, provided they fulfil their agreement

Father Mathew's Visit to Bangor—His Letter.

The following letter of the great apostle of Temperance to the committee of the different Temperance organizations of the city who have invited Father Mathew to visit this place, announces that on Saturday 27th he proposes reaching the city and will remain he through the Sabbath and Monday for the purpose of administering the temperance pledge

The Committee referred to are invited to attend a meeting at the City Hall in the Common Council room on Thursday, (to-morrow,) evening, at 7½ o clock, for the purpose of making all the necessary arrangements to promote in the highest degree the great object of Father Mathew in making the visit

BOSTON, 10th October, 1849

My dear Sir

It was to me a source of deep anxiety, that I could not hear now, avail myself of the much prized invitation, so courteously conveyed by you, in behalf of my friends in Bangor

The duties of my mission in this city, obliged me to remain here longer than I anticipated, and thereby prevented me from sooner gratifying my desire to spend a day or two with the good people of Bangor I have now set apart the earliest period at my disposal for that purpose, and hope to reach your city, (God willing) in the afternoon of Saturday the 27th inst, to devote the following Sunday and Monday, to the promotion of the sacred cause of Temperance

Whilst I am deeply grateful to the high minded American People, for the proofs they have given of their appreciation of my humble labors, it is my anxious desire, that in future, they will not impose upon themselves and me the trouble of a public demonstration, as I find by experience that processions, and public receptions, however kindly intended, only retard my progress The necessarily short stay that I can make in each locality I am most anxious to devote exclusively to the administration of the Total Abstinence Pledge I feel confident the gentlemen of your committee, will enter into my feelings on this subject Presenting to them my profound respects, and grateful acknowledgements, I am Dear Mr Kimball,

Yours Devotedly,
THEOBALD MATHEW.

Russia and Turkey.

The declaration of the Russian Emperor that he shall consider the escape of a single Hungarian refugee in Turkey a *casus belli*, will render the next news from Europe rather interesting The general opinion appears to be that the Turks will succumb as they always have done, before the military power of Russia Three times during the present century have the Turks and Russians been at war, and each time the former have been beaten The last was in 1829, when a powerful Russian army penetrated the hitherto considered impregnable mountainous barriers of the Balkan, captured Adrianople, and dictated ignominious terms of peace under the walls of Constantinople

Launched.

At Augusta, Oct 4, a ship of 650 tons built by master Jones This ship is the largest vessel ever built in that place

At Hallowell, ship John Merrick of 691 tons burthen, and owned by Capt Horatio Stevens and others of H

From the yard of Messrs Larrabee & Allen, on Tuesday, 2d inst, ship Old England, 916 tons She is owned by Co T. D. Robinson, is a first class white oak ship, built in the most thorough manner

Also, on the same day, ship New England, about 900 tons built and owned by the Messrs W Y & M Moses This vessel is also of white oak, and is built in the most thorough and workmanlike manner.

The California Convention.

The New York papers have accounts of the first day's proceedings of the California Convention which met at Monterey Sept Ten members were present representing the district of Puebla de San Jose, Monterey, Sonora, San Luis Obispo, and San Diego Kimball H Dimmick of San Jose, was chosen temporary chairman, and Henry A Tefft of San Luis, Secretary *pro tem* The convention then adjourned to meet on the 3d for permanent organization Mr J Ross Browne, author of 'Etchings of a Whaling Cruise,' and for some years a stenographer in the U S Senate, was making a full stenographic report of the proceedings

The following gentlemen are spoken of for president of the Convention Judge Dimmick, Dr Gwinn, Mr Foster, Governor Boggs For the office of Secretary the following gentlemen are candidates J P Hartnell Mr Marcy, Postmaster at Monterey, and son of Gov Marcy of N Y, Mr J F Howe Philadelphia, Caleb Lyon, of Lyonsdale, New York, P See, of San Francisco

A correspondent of the Journal of Commerce says

'Col Fremont is confidently spoken of for Governor under the new Constitution, and his name has also been mentioned in connexion both with the offices of Senator and Representatives in Congress

Mr T Butler King of Georgia, who is young very ill of dysentery at San Francisco has so be urged by his friends here for United States Senator, though he is at present, as is well known a Representative elect to the next Congress from the Savannah District Besides these are Gen Vallejo former Mexican Governor of California, Gen H Biggs formerly of Missouri, and Governor Shannon formerly of Ohio Major Snider, grandson of Simon, of Pennsylvania, who has been out here nearly two years is also mentioned in the same connexion He is a delegate to the Convention Among the delegates is also a brother of the Hon John M Botts, and quite an able man

The Charleston Courier in its Telegraph no despatch from New Orleans has the following

It is reported that efforts will be made in the State Convention, by some political aspirants, to adopt an entire new Constitution. The majority of the delegates are thought to be favorable to taking the Constitution of one of the Western States and adopt it with slight alterations of a local character Slavery, it is supposed, will either be excluded, or resolutions embracing the question in full be submitted to the people for their approval

Letters to the New York Herald state that it was thought that the Convention at Monterey would be in session three weeks, and that the slavery question would be the only important cause of division There are three parties, one in favor of inserting a prohibitory clause against slavery another for specially allowing its introduction and a third in favor of leaving the subject entirely untouched by the constitution, subject to future legislation Much excitement existed in relation to the Convention

Not less than two hundred and fifty Americans, on their way to San Francisco, have died in Panama during the sickly season

☞ Thanks to Mr Lowell, and Mr Cushing, of the steamer Governor, for papers received on yesterday, in advance of the mail

Ten days per annum is the average sickness of human life

Letter from a Native of Palmyra, Me.

Mode of Travelling—How the Gold is got—Profits of digging—San Francisco—Its delightful climate, fertile soil—Splendid vegetables—Rate of interest.

SAN FRANCISCO, July 18, 1849

I arrived here last evening from the mines 200 miles from here, where I have been since March Made the journey on horseback. We take a small stock of provisions and a blanket on our horses—travel till night keeping a good look out for grass and water—wrap ourselves in the blanket and bivouac under a tree. One night we missed a small spring we should have come to, the only one for thirty miles, and were obliged to keep on till morning San Francisco has more than doubled since I left it in March, and now has the appearance of a busy little city

When I first went to the mines I commenced working with the pick and shovel in a creek of about the size of those where we used to catch trout in Palmyra The gold is found on the ledge in the lowest of such creeks, or immediately under the water To get at it the stream must be turned from its natural channel, but the water flows in through the earth so fast that it is necessary to keep one hand all the time bailing while another digs I worked at it two weeks clearing about two dollars a day over expenses Some of the boys made would have cost half as much as all I made, for weeks, in Boston So I threw away my pick and spade and went to trading My store was a tent about half as large as your little counting-room—but having been prosperous I have enlarged my accommodations and now occupy one considerably larger I have come here now to buy goods, and am in hopes I shall not have to leave the mountains again before spring as the climate there is far preferable to what it is here. Here the wind commences blowing every day at 10 A M and blows till 5 P M so hard that you have to lean 4 or 5 points towards it to keep your balance Indeed I have never known winds to blow so hard the same length of time as they do here and their temperature is as near as you can imagine like that of the Boston East winds in March and the people here dread about the same all through the summer as they do with you in March

This is the delightful place we heard of where oranges flourished and no fire places were needed There is not grass enough within ten miles to feed a horse The bushes never get so high as my head, and very scattering at that In truth it is a miserable, sandy, barren, hilly, cold end of the earth But as you leave the coast for the interior the climate becomes more mild and the soil good but there is very little land that will ever be cultivated in this country In the mountains it is as healthy as anywhere on the face of the earth The water in the rivers is as cold as ice water until the middle of July

I find that money here is worth six per cent a month with the best security that can be given, which is a fact I find hard to account for—I have got a poisoned hand, or I would write you more.

Cholera Incident.

To the Editor of the Whig and Courier

Soon after one of the steam boats that ply between Boston and the State of Maine had left the wharf for her eastern trips, one of the female passengers was suddenly seized with the premonitory symptoms of cholera In an instant all was confusion among the lady passengers, and each, thinking only of herself, fastened to place as much room between herself and the sufferer as the limits of the ladies cabin would admit Hurried murmurs were heard in different parts of the cabin; and one good lady said she should think the captain ought to be ashamed of himself, to carry passengers who were liable to have the cholera Another, said for her part she should think that sick people ought to stay at home. Another, thought there ought to be a boat on purpose to carry cholera passengers Soon, however, nought was heard but the groans of the sick woman

For the honor of humanity be it said, that among this mass of selfishness, there was one who could "feel for others woes, this was an old lady some sixty years of age, lame and feeble; but who, possessed more of the milk of human kindness than commonly falls to the lot of frail humanity She hastened to the assistance of the sufferer, and remained with her through the entire night, ministering to her necessities, and applying such remedies as were to be had on board the boat Before morning she had the pleasure of seeing her patient better, and before the boat arrived at her first landing place she was out of danger This was reward enough for the good Samaritan, but the grateful husband loaded her with thanks, and repeatedly told her she had saved the life of his dear wife, that had it not been for her, he should now be alone in the world, with none to comfort him The good woman told him she had done no more than her duty, and the pleasure she received from seeing a fellow creature relieved from suffering, was reward enough that no thanks were due to her, but to Him, who had made her the instrument of doing good

The boat shortly after, arrived at the wharf, and the passengers separated, and went their respective ways, the good woman also went to her home, and thought no more of the incident, as it was not an uncommon thing for her to do good to her neighbor She was however greatly surprised at meeting the grateful husband a few days after, to not only hear him repeat his former protestations of gratitude, but also to insist upon *rewarding* her for, as he said, saving the life of his wife The good woman feeling hurt, that he should think that any *pecuniary reward* could add to the pleasure she already felt He, on the contrary could not conceive of happiness except it was reduced to its *lowest* term, dollars and cents. He therefore insisted upon giving her substantial proof of his gratitude, and she, finding it was of no use to refuse, and thinking that it might be the means of making him happier, consented to receive whatever sum he might in the excess of his generosity, bestow The good man was pleased that she consented to receive his gratitude in a tangible form, told her he had had it in his mind to do something for her ever since that fearful night, and that he never could rest satisfied with himself without rewarding her for her invaluable services, that he had always acted upon the principle that "the laborer was worthy of his hire," and hoped he always should, and putting his hand in his pocket, gave her a—*quarter of a dollar*

Remarkable Discovery in Cholera.

The European Times of Sept 29th has the following

Within these few days a practical discovery has been made respecting the cause of cholera, which completely supersedes all the previous theories upon the subject It has been placed beyond a doubt by the laborious experiments of Dr. Brittan, and Mr Swayne of Bristol, that certain organisms, in very great numbers, exist in the alvine dejections or rice evacuations of persons who have died from cholera, & the existence of these organisms has been proved indontrovertibly, and that in no instance do they exist except in the cases described of cholera This led to further investigation, and it has now been established that a similar organism exists in places affected with cholera, and especially in the foul water of cholera districts; and that these organisms, which are proved to be of the fungus tribe, are assumed to be the cause of malignant cholera, by being taken into the body in the act of swallowing The new organisms are said to be only developed in the human intestines, and there cause the peculiar flux which is characteristic of malignant cholera A variety of very strong proofs are adduced to substantiate these allegations, the organisms having been seen by almost the whole scientific world in London and Bristol Already the genius of invention is at work to devise schemes to destroy in embryo these minute but pestilent enemies of the human race.

☞ The Washington correspondent of the N Y Courier & Enquirer, in a letter under date of the 11th inst says

"There is hardly ground for the apprehension which some entertain in consequence of the threats of the 'Union' and a few of its echoes, to break down the Department of the Interior I can inform the Union' that the entire law-making power is against its reckless proposition Some demagogue may propose the thing in the House, but it so it will receive a quick quietus I know whereof I do affirm I doubt whether the question will be raised in the Senate *Yours verrons.*

Some already Whigs are anxious that the Democrats in the Senate should not forget to be factious when they come to vote on the President's nominations Such a course would enable the Administration to correct certain mistakes, and would consolidate the Whig party more effectually than anything else which is likely to occur before the next Presidential election

Lieut Maury brought important information from California, which, it is said will not be made public until the meeting of Congress

Elihu Burritt was to leave England on the 6th inst on his return to the United States.

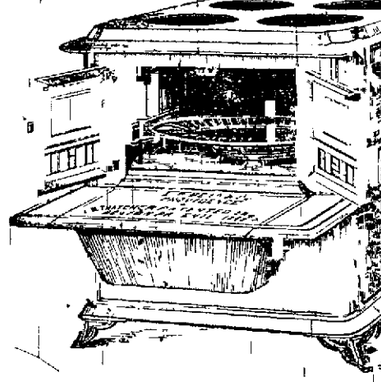
Hot Blast Air Tight

COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE for its superior advantages, took the first premium at the American Institute city of New York, at the Hartford County Fair Connecticut, at the Worcester Co Fair Mass also the Franklin Institute Philadelphia

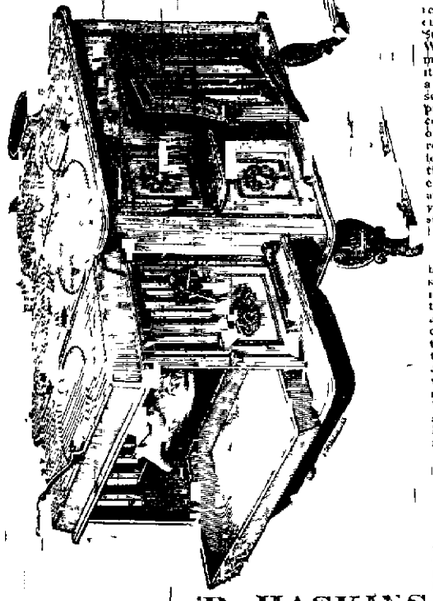
One very important improvement in this Stove is the patent Broiling Chamber (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices and giving steaks the same flavor and pleasant twang of the best charcoal broil (being equally well adapted to roasting, roast or pot frying) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling. The broiling department is always ready to be operated by the same fire required for other purposes, and not interfering with it or other parts of the cooking

The flues being the entire width and passing directly around the oven, applies the heat to all parts alike. The oven for Baking is not equalled by any Stove in use. Warranted to give satisfaction or thirty days

For sale Wholesale and Retail by

HENRY A. WOOD & CO,
Nos. 1, 2, & 3, Broad Street,.... BANGOR.

SEE THE RAIN BOW.



THE Rainbow Cooking Stove represented by cut as above with out doubt is one of the best cook Stoves ever offered to the public. We cannot here enumerate all the minutiae of its construction nor is it necessary, those wishing to buy a cook Stove, can satisfy themselves by seeing it, what is the prospect for a stewed and roasted dinner attached to it. It has two fine ovens distinct from each other—a roaster in front where meats or fowl are roasted in a free circulation of air in the good old fashioned way by turning on a spit, before an open fire. This invaluable advantage, possessed by no other stove we have recommended to allge our house wives. The back oven is used and the same for baking pies, cakes perfectly. The broiling apparatus is fine, and all scent passes through the flues, having the steaks exposed to a circulation of fresh air. The fire passages are very deep, the flues conducting cement at the top and bottom of the oven, protects the parts from intense heat. It has been tried and we know it to excel any stove we have in the market,—the castings are very heavy and strong—We expect to have all the medals and awards of all the Fairs, for the Rainbow! Should be happy to show it to those who will call on us

A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE for its superior advantages, took the first premium at the American Institute city of New York, at the Hartford County Fair Connecticut, at the Worcester Co Fair Mass also the Franklin Institute Philadelphia

One very important improvement in this Stove is the patent Broiling Chamber (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices and giving steaks the same flavor and pleasant twang of the best charcoal broil (being equally well adapted to roasting, roast or pot frying) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling. The broiling department is always ready to be operated by the same fire required for other purposes, and not interfering with it or other parts of the cooking

The flues being the entire width and passing directly around the oven, applies the heat to all parts alike. The oven for Baking is not equalled by any Stove in use. Warranted to give satisfaction or thirty days

For sale Wholesale and Retail by

HENRY A. WOOD & CO,
Nos. 1, 2, & 3, Broad Street,.... BANGOR.

SEE THE RAIN BOW.

THE Rainbow Cooking Stove represented by cut as above with out doubt is one of the best cook Stoves ever offered to the public. We cannot here enumerate all the minutiae of its construction nor is it necessary, those wishing to buy a cook Stove, can satisfy themselves by seeing it, what is the prospect for a stewed and roasted dinner attached to it. It has two fine ovens distinct from each other—a roaster in front where meats or fowl are roasted in a free circulation of air in the good old fashioned way by turning on a spit, before an open fire. This invaluable advantage, possessed by no other stove we have recommended to allge our house wives. The back oven is used and the same for baking pies, cakes perfectly. The broiling apparatus is fine, and all scent passes through the flues, having the steaks exposed to a circulation of fresh air. The fire passages are very deep, the flues conducting cement at the top and bottom of the oven, protects the parts from intense heat. It has been tried and we know it to excel any stove we have in the market,—the castings are very heavy and strong—We expect to have all the medals and awards of all the Fairs, for the Rainbow! Should be happy to show it to those who will call on us

N. B. No bills will be paid without a written order from the Captain or Agent, W. A. BLAKE.

NEW AND

Important Discovery

GRAY HAIR can be restored to its original colour, whether Auburn, Brown or Black: Sandy, Light or Red Hair, can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, Brown or Black, without any additional preparation or the slightest trouble.

A Valuable Article!!

BALLARD'S COMPOUND EXTRACT OF

Strawberry Leaves

IS the best, surest, and safest remedy known for the cure of Diarrhea, Dysentery, Cholera Morbus, Summer Complaints, Pain in the Stomach and Bowels. A single teaspoon full of this invaluable extract has been known to cure all the above complaints, and a single bottle has not failed to cure in any instance, the most obstinate and protracted case. Thousands of children, as well as grown people, die with the above complaints, who might have been cured by using the Extract of Strawberry, prepared by O. M. Ballard, practical chemist, at 46 Cortlandt Street, New York.

HEALTH AND JOY FOR THE SICK!!

DR. STEPHEN JEWETT'S

Justly and Highly Celebrated

Family Medicines,

Used by Physicians of high Standing.

Prepared by STEPHEN JEWETT, son of the late *DR. STEPHEN JEWETT, of Rindge, N. H.*

IT is not pretended that ANY ONE of these Medicines will RELIEVE OR CURE EVERY DISEASE AND REASONABLE PERSONS KNOW NO SINGLE ARTICLE CAN COMPLISH SUCH RESULTS. But it is TRUE EACH of these medicines, by thorough trial, will be pronounced to have NO SUPERIOR OR EQUAL FOR RELIEF and PERMANENT CURE of those diseases for which they are recommended, as they have been tried, and proved by their continued use for the last fifty years by NUMEROUS FAMILIES and PHYSICIANS to be TRULY "FAMILY MEDICINES," and pronounced to be ALL the MEDICINES ANY PERSON or FAMILY can require, unless in very extraordinary cases. Their power over disease has not *been excelled—if equalled*,—as numerous cures attest, where skill ful physicians have failed to produce relief.

ALL CAN BE CURED, WHO WILL USE THEM AS DIRECTED, IF WITHIN THE POWER OF MEDICINE.

Dr. Stephen Jewett's Celebrated

True Health Restoring Bitters

These Bitters remove all morbid secretions, purify the blood give great tone and vigor to the digestive organs, cure diseases that already exist, fortify the system against all future disease, can be taken with safety—at no time debilitating the patient; being grateful to the most delicate stomach, and remarkable for CHEERING, INVIGORATING, STRENGTHENING and RESTORATIVE PROPERTIES and as invaluable and sure remedy in

Liver Complaints, Jaundice,

Dyspepsia; Flatulency or Wind; Costiveness; Faintness; Pain in the Side, Bones or Joints; Disorders of the Skin, Liver and Kidneys; Relaxed Bowels; Loss of Appetite; Unnatural Appetite; Sleeplessness; Depression of Spirits; Piles; Humors; Worms; Sinking and Fullness or Weight at the Stomach; Nervous Headache, and every form of Indigestion; Nervous Irritability; Giddiness; Drowsiness; Wandering Pains; Palpitation of the Heart, Scrofula; St Anthony's Fire; Salt Rheum; Canker; Cancerous Sores; Incipient Consumption, and all other diseases caused by an impure state of the Blood, Liver &c. or which tend to debilitate and weaken the system.

TO FEMALES, who suffer from a Morbid and Unnatural Condition, and who seem threatened with CONSUMPTION, this is a Medicine of Inestimable Value. It is an *Excellent Remedy* in SUMMER COMPLAINTS, and a *Great Preventive* of FEVERS.

Dr Stepher Jewett's highly Celebrated Pulmonary Elixir.

This Elixir contains many of the most highly approved cough or expectorant medicines, recommended by the United States, London and Edinburgh Colleges of Health; but being peculiarly and fortunately combined, is truly wonderful in its good results. *Particularly should this Medicine be in every Family where there are* CHILDREN, as the delay incident to procuring a Physician has often proved fatal to those whom *timely assistance would have SAVED.*

This Elixir will prove itself to excel any thing, as a sure remedy in

Consumption of the Lungs, Coughs, Colds; Sore Throat; Influenza; Asthma; Bronchitis; Quinsy; Croup; Whooping Cough; Difficulty of Breathing; Pains in the Side or the Breast; Soreness of the Chest; Distress when lying upon the side, producing Choking, or sense of Suffocation, &c., &c.

Dr Stephen Jewett's Justly Celebrated Strengthening Plaster.

This Plaster is composed of quite a number of vegetable substances, peculiarly compounded.—There never has been, and there is not at the present time, a better plaster made, for the various purposes for which plasters are used. It HAS NO SUPERIOR for removing

Pain, Internal Inflammations,

Rheumatism; Gout; Swollen or Weak Joints, Limbs or Bones; Lameness, Cramp; Pains or Weakness in the Side, Back or Breast. Weak Stomach, &c., &c., and when used in

LIVER AND PULMONARY DISEASES,

will prove very beneficial to those suffering with such complaints.

Extract from a letter of an eminent physician in Western Mass., a member of the Massachusetts Medical Society.

WINCHENDON, Jan. 16, 1849.

"Dr. Stephen Jewett:

Dear Sir,—I introduced *your Health Restoring Bitters* in my practice, and have found them very serviceable in *Dyspepsia, Humors, General Debility*, and particularly in *Habitual Costiveness*. I consider it one of the *best* remedies in use. Yours, &c.,

IRA RUSSELL, M. D."

From one of the most eminent physicians in the State of New Hampshire.

TEMPLE, N. H., Jan. 17, 1849.

"Dr. S. Jewett:

Dear Sir,—I have examined your *Pulmonary Elixir*, and as well as, and that I can *write the full confidence* of the community, as being what it purports to be, an efficient and *safe* remedy for all the diseases to which the respiratory organs are subject. It may be used with much more *safety* than almost any other article suitable for Spring and Summer wear, which will be made up to order in the most Fashionable manner, and will be sold at prices as low as at any establishment in the Union. PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON.

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier; he continues to forward them free of expense*—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen years'* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents: There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of securing their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

Aug. 7, 1849. 3Sept 1050

STATE OF MAINE.

AN ACT to provide for taking a State Valuation.

Be it enacted by the Senate and House of Representatives in legislature assembled, as follows:

SECTION 1. It shall be the duty of the Mayor of each town; the selectmen of each town, and the Assessors of each plantation on or before the first day of January next, to return to the Secretary of State, on oath, a true copy of the valuation of such city, town or plantation, and number of polls upon which the city, town, or plantation tax, for the year eighteen hundred and forty nine, was assessed, and any city, town or plantation not so returned shall be doomed in the next valuation at the pleasure of the Legislature and the valuation thereof shall not afterwards be reduced for the term of ten years.

SEC. 2. It shall be the duty of the Secretary of State to transmit to each city, town and plantation, a copy of this act immediately upon the adjournment of the Legislature, and publish the same in the papers printing the laws of the State sixty days.

SEC. 3. This act shall take effect from and after its approval by the Governor.

[Approved August 15, 1849.]

SECRETARY'S OFFICE,

Augusta, Aug. 20, 1849.

I hereby certify that the foregoing is a true copy of the original on file in this office.

E. B. FRENCH, Sec'y of State.

Sept. 8 60d

DR. SPEAR'S

SO MUCH CELEBRATED

Indian Vegetable Medicines,

ARE Universally Acknowledged to be the Safest, Cheapest and Most Effectual Remedies for the various Diseases of the human system, ever offered to the public. They can be relied on with confidence to cure all curable cases. Their action is immediate and thorough, eradicating disease in its worst forms.—Thousands who have been pronounced incurable by their Physicians, yet live, to testify to the virtues of those extraordinary preparations, having been restored to sound health by their use.

We will name here some of the principal Medicines and their uses, referring the inquirer after health, to the "FAMILY PHYSICIAN," a work dedicated by Dr. J. S. Spear, where may be found a brief treatise on the origin and nature of the principal diseases, which afflict humanity; directions how to preserve, and restore health, together with some certificates from highly respectable persons, testifying to their healing virtues and urging their importance. These Medicines can be obtained of Dr. Spear's Agents, too.

BALM OF LIFE, No. 1 & 2.—For Consumption, Dyspepsia, Indigestion, Liver Complaint, Debility, Nervous Affections, Phthisic, Asthma, Palpitation, Bronchitis, &c.

CATARRH SNUFF.—For Consumption, Catarrh, Cough, Headache, &c.; this is scientific cure for Catarrh, and is the only proper preparation for cleansing the head in cases of colds, &c. THE LIVER WORT PILLS, have been for a long time a conscientious and universal medicine. A trial of one box will satisfy the patient that they are the best purgative known. They remove the most severe colds, coughs, pains or fevers, if taken in season. SCROFULA SYRUP.—This is one of the most effectual agents in use for cleansing and purifying the blood; it removes every impurity from the system, who therefore, cannot be diseased. It is a compound of seventeen ingredients, and of a purely vegetable character. For efficacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY—CERTAIN CURE.—This is warranted to cure the Salt Rheum in its worst forms. TONIC CORDIAL is one of the most powerful tonics ever discovered; it is the best female medicine to be obtained. WOMAN'S FRIEND, for the falling of the womb. This is the only remedy before the public for this purpose. It obviates the necessity of resorting to instruments, and is unquestionably a most certain remedy. EYE WATER.—This is the best eye water now in use. GRAVEL SYRUP.—This will cure all cases of the gravel. For other remedies, see "Family Physician."

All the ingredients of the above Medicines are furnished by Nature herself, and are combined in accordance with known principles universally received as sound by all scientific Physicians.

Their merits have been acknowledged by thousands. They have been tested and proved to be equal to the consideration claimed for them.

If a fair trial fails to restore health, he confides in the proprietor of their efficacy, that the expense of any other means which does effect a cure will be paid, provided it does not exceed one hundred dollars.

Principal Office, 270 Washington Street, Boston.—Sold also by E. F. Duren, Hotkenller, No 2 Gothic Block, Main-St., Bangor, J. W. Curtis, Hampden, Upper Corner, L. S. Smith, Hampden, C. Johnson, Frankfort, Hamblon & Ruse, Orono, L. Harriman, Upper Stillwater, Spencer & Clark, Milford, H. & J. Richardson, Old Town, S. Goodwin & Co., Brewer Village, S. P. Brown, Orland, J. Hooper, Jr. Castine, G. H. Emerson, North Castine, H. & S. K. Whiting, Ellsworth.

FITS! FITS!!

HARTS' VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors; Neuralgic Affections, Apoplexy, Paralysis, General debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever affect the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterics, Convulsions, Spasms, &c. Dr. Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until his most important of all discoveries was made by Doctor S. Hart, nearly sixteen years since, during which time it has been performing scenes of the most

REMARKABLE CURES

upon record, and has acquired a reputation which alone can confide. Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our most honest citizens, all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus afflicted, as the only remedy.

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a sound man. I also feel it my duty to proclaim it to the cities of the earth, that those similarly afflicted may find relief. Another (who is an

EMINENT LAWYER,

and well known in this city,) says, "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract. Its fame," says he, "should and ought to be sounded to the ends of the earth." Another says, "Language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God, of restoring me to good health, after having been inflicted with Epilepsy in its worst forms for more than twenty-three years, and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

Mr J Bradley, 115 Orchard street, New York, states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract.

Dr Charles A Brewer, of Dove, Russell co, Alabama, who is one of the leading physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.

Curtis G Mayberry, Esq, formerly Postmaster at Lima Mills, Crawford Co, Pa, now living in Erie Co Pa, states that for nine years he has been severely afflicted with Fits, and he is now happy to state that a perseverance use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases.

Mr Stephen B Fenton, counsellor at Sixth Avenue and Twenty-sixth Street, New York, states that Mr Charles E Boughton, a member of his family has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract [says Mr F] he was soon restored to perfect health, and left this city for the State of Ohio to resume his business.

Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, will, has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits.

EPILEPTIC FITS,

For twenty-seven years, in eight and six months, cured by the use of this truly wonderful medicine.

Read the following remarkable case of the son of Wm Sucore, Esq. of Philadelphia, afflicted with Epileptic Fits for twenty-seven years and six months.—After travelling through England, Scotland, Germany, and France, consulting the most eminent physicians, and expending far more time, medical treatment and advice than thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, until was cured by using

HART'S VEGETABLE EXTRACT.

I have spent over fifteen thousand dollars for medicine and medical advice. I was advised to take a tour to Europe with him, which I did. He was visited England, I consulted the most eminent physicians there in respect to his case; they examined him and prescribed according. I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received, was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE.

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing you statements and certificates of so many cures, some of twenty and twenty years standing. I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract my son he was restored to

PERFECT HEALTH.

His reason, which was so far gone as to unfit him for business is entirely stored, with the prospect now before him of life, health and usefulness. He is now 28 years of age, and 2 years 6 months of this time, he has been afflicted with this most dreadful of diseases, but thank God he now enjoying good health.

Now, sir, faith without works I don't believe in.—To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars I have no doubt you will think his conduct and quite a different thing.—The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance. Yours, very respectfully,

(Signed) WILLIAM SEGORE.

THE TIME IS NOT FAR DISTANT

When thousands will no more tremble under the hand of this dreadful scourge, and fearing that every attack may prove fatal, will find permanent relief and be restored to now life, by using this celebrated medicine.

OVER ONE THOUSAND CERTIFICATES

Have been received in the many of the beneficial results produced by the use of Dr Hart's Vegetable Extract.

DR. PEARSON'S CARMINATIVE BALSAM.

Great Cholera Preventive.

THIS article should be in the possession of every person travelling. It has never been known to fail of producing the happiest results in cases of Cholera Morbus, Diarrhœa, &c., and has during the prevalence of the CHOLERA in this country, been performing wonderful Cures,—though it is recommended more particularly as a PREVENTIVE, that it may be used in any stage of the complaint. If taken immediately upon the appearance of the Diarrhœa—which is a premonitory symptom of Cholera—as a tick of this fearful and fatal disease may be prevented. In Cholera Morbus and Summer Complaints of children, it has no equal. Dr. P. has made use of this remedy in his practice for near 15 years, with the most remarkable success. Price only 25 cents per bottle.

It is decidedly the most beneficial remedy for the cure of Dysentery, Cholera Morbus and Summer Complaint, that is known to man. Parents will find it the best medicine that can be used for young children and infants. And every person who is travelling in the summer months should not be without a bottle of it in their possession; as it is an infallible remedy against the change produced in the system by drinking bad water.

We annex the following certificate of Mrs. A. M. Sanford, of New York, in reference to the Carminative Balsam. We might add a long list, but consider this sufficient.

This is to certify that I have used Dr. Pearson's Carminative Balsam, and confidently believe it to be the best medicine that can be used for the various diseases for which it is recommended it to all ladies who are travelling in the summer months, and mothers for the fretting and crying of infants for which it is a certain cure.

MRS. A. M. SANFORD.

—1849— Fall Style.

RECEIVED by HEMENWAY & HERSEY'S, 20 Main Street.

DR. CHRISTIE'S GALVANIC BLOOM BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are found to be impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect confidence in the cure of all cases of

GENERAL DEBILITY,

Strengthening the weakened body, and invigorating the various organs, and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic,

GOUT, EPILEPSY, LUMBAGO,

DEAFNESS, NERVOUS TEMPERS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugging Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system, while under the strengthening, invigorating influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient, weakened sufferer is restored to more health, strength, activity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they are applied by *outward application*, in place of filling the stomach with drugging and sickening the patient, till almost ruined Nature sinks hopelessly under the medicine.

They strengthen the whole system without injuring the delicate stomach, or the slightest injury to the nervous system. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have testified

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and everything else been tried in vain.

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that disease of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties; after the action has excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst stage of an attack, and simply put the Belt around the body, using the Magnetic Fluid as directed, and in a short period the insensible perspiration will set in, the positive element of the Belt, thereby commencing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED, A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Certificates and Testimonials

From the most Respectable Sources

Could be given, sufficient to fill every column in this paper! We make a few selections. The first is

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and elevated reputation:—

SHARON, New Jersey July 12, 1849.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what
